

Shahada Taluka Educational Society & Co-Operative Educational Society Ltd.
Institute of Management Research and Development
Shahada Dist- Nandurbar

7.1.2: The Institution has facilities and initiatives

The IMRD, Shahada is taking several steps to manage waste effectively, promote energy conservation, and create a sustainable environment. We will provide a summary of the various initiatives mentioned:

1. Alternate sources of energy and energy conservation measures –

Solar Panel: Institute installed solar panel as alternate source of energy as a green source.

LED: The IMRD, Shahada is using LED lights, which are energy-efficient and can help reduce electricity consumption compared to traditional lighting systems.

2. Management of various types of degradable and non-degradable waste: Waste is collected from various sources and divided into dry and wet waste. Solid garbage is collected in colored bins, and the material is segregated for proper disposal. The liquid wastewater from toilets is currently being directed to a soak pit through the drainage system, which could potentially contribute to an increase in the groundwater level. E-waste is stored separately for proper recycling. At IMRD, Shahada, there is a strong emphasis on reducing paper consumption by embracing digitization. The college has invested in a centralized campus management system to facilitate this digitization process. Additionally, single-sided printouts are recycled and reused for draft purposes within the college, contributing to their paper conservation efforts.

3. Water conservation - Rain Water Harvesting: The IMRD, Shahada practices rainwater harvesting to conserve water and potentially raise the groundwater level.

4. Green campus initiatives: The IMRD, Shahada has implemented various green initiatives, including displaying signboards, providing dustbins for waste segregation, establishing a green policy, energy policy and maintaining a "No-Entry" policy for automobiles in the campus. These measures promote a cleaner and greener environment.

5. Disabled-friendly, barrier-free environment: The IMRD, Shahada has taken steps to make the campus accessible and friendly for disabled individuals. Features such as ramps, scribe rooms, toilet facilities, and wheelchair accessibility are provided to ensure inclusivity.

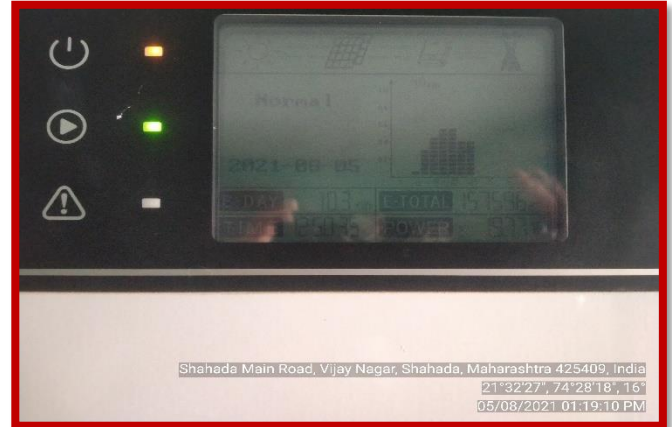

The IMRD, Shahada seems to be taking proactive steps in waste management, energy conservation, water conservation, and creating an eco-friendly campus environment. These initiatives not only contribute to environmental sustainability but also promote awareness and responsible practices among students and staff.

Green Policy of Institute

The IMRD in Shahada is dedicated to sustainable practices and acknowledges the urgent need to address environmental problems. The college's commitment to minimizing its environmental effect, advancing sustainability, and cultivating an environmentally conscious culture is outlined in its Green Policy.

1. **Plastic Ban:** Set up a comprehensive plastic ban policy that minimizes or completely bans the use of single-use plastics while encouraging sustainable alternatives.
2. **Cleanliness:** Maintaining cleanliness and a hygienic environment requires fostering a culture of cleanliness through promoting frequent cleaning and waste management procedures.
3. **Water Conservation:** Encourage water conservation by running awareness programs, advocating responsible water use, and putting in place water-saving techniques.
4. **Energy Conservation:** Encourage energy conservation through implementing energy-efficient procedures (using LED), using renewable energy sources, and increasing public knowledge of energy-saving techniques.
5. **Waste Management and Recycling:** Put in place a strong waste management system that includes recycling initiatives, appropriate trash sorting, and safe disposal of hazardous materials.
6. **Sustainable Transportation:** Encourage environmentally friendly modes of transportation, such taking public transportation, to cut carbon emissions and encourage a greener commute.
7. **Environmental Education:** Include environmental education in the curriculum to inform pupils about environmental conservation, climate change, and sustainability.

Energy Policy of Institute

The IMRD Institute is dedicated to sustainable practices and understands the value of energy saving in preventing climate change and lessening its negative effects on the environment. Our energy policy aims to encourage students, professors, and staff to use energy responsibly and in an efficient manner. We want to build a sustainable campus environment and contribute to a greener future by enforcing this policy.

Energy Policy for Students and Staff: "Switch Off, Conserve Energy"

1. All students and staff are required to switch off lights, fans, instruments, and appliances when leaving classrooms, offices, laboratories, or any other spaces.
2. Encourage students and staff to use electricity responsibly in order to promote an energy-saving culture.
3. Encourage people to take an active role in minimizing energy waste by increasing knowledge of the value of energy conservation.
4. Implement campaigns that educate and remind people to turn off their electrical devices when they leave a room or when the day is over.
5. Monitor energy usage and provide feedback to students and staff to track progress and celebrate energy-saving achievements.
6. Promote energy-efficient practices, such as utilizing natural light, enabling sleep mode on computers, and using energy-saving appliances.
7. Encourage students and staff to take ownership of energy conservation and actively contribute to creating a sustainable campus environment.
